Datasheet

Datasheet for Scope 1, 2 and 3 – Frode Laursen A/S

This datasheet presents CO₂e emissions for Frode Laursen A/S, distributed across Scope 1, 2 and 3.

The data has been compiled as part of our work with the Science Based Targets initiative (SBTi) and covers the activities included within the SBTi boundary.

The data does not cover the Frode Laursen Group and can therefore not be directly compared with the Group's total reporting.

KEY FIGURES	2024	2023	2022
Emissions CO₂e (tonnes)			
Scope 1	346	340	252
Scope 2 (Location-based)	1.380	1.468	1.508
Scope 2 (Market-based)	5.454	4.361	278
Scope 3			
C1 Purchased products and services	209	131	171
C3 Fuel and energy-related activities	692	350	572
C4 Upstream distribution and transport	101.993	99.549	108.278
C5 Waste management	31	81	44
C6 Business travel	86	103	104
C7 Employee commuting	1.148	1.222	1.384
Total	104.158	101.437	110.553
Total CO ₂ e emissions (all scopes)	105.884	103.246	112.313
